

BOAT RAMPS AND LAKE ACCESS

The City of Lakeport boasts the finest boat ramps and lake access on Clear Lake and the best part of it is that they're free. Lakeport has three primary points of access to Clear Lake at First, Third, and Fifth Streets. Seven lanes of boat ramp access to Clear Lake are available at these three ramp facilities.

There is well-designed turn-around, back-up, and maneuvering access for boaters and abundant free boat, trailer, and vehicle parking just steps away. No long walks between the parking area and your docked boat.

Lakeport also provides floating and mechanically-operated floats, some of which are available year-round. Another nice feature of the lake access facilities in Lakeport is the close proximity to fuel, restaurants, boating supplies, groceries, fishing supplies, overnight lodging, and camping.

Lakeport has long been known as the place to put your boat in the water, whether you are a recreation boater or a professional bass fisherman.

Improvements continue to be made to Lakeport's boating facilities, including the recent construction of parking facilities at Fifth Street and the reconstruction of the Third Street boat launch, ramp, and docking facilities that were completed in 2005.

The City of Lakeport welcomes all users of Clear Lake and supports the many bass tournaments and other lake-oriented activities that occur on the largest natural lake entirely within the State of California.

Come visit and take advantage of the finest free boat launch and trailer parking facilities on Clear Lake in Lakeport.
