City of Lakeport, Parks and Recreation Commission
225 Park Street
Lakeport, CA 95453

Commissioners,

The Westside Community Park Committee requests that you review the enclosed Discovery Document related to the development of the horse area at the Park. We further request that you make a positive recommendation and forward it on for action by the City Council.

The members of the WCP Committee have voted to begin the process of development. Two of the members have met with both the City Manager and the head of the Park Department to discuss this. They have given their support.

The planning process will take a significant amount of time and we are eager to begin.

Please place this on your next agenda.

Thank you,

Dennis A. Rollins
Chairperson
