Officers from the Lakeport Police Department and the California Highway Patrol conduct teen driver education at Clearlake High

10-19-11 3:00 pm

On 10-19-11 at 3:00 p.m., officers from the Lakeport Police Department and the California Highway Patrol conducted a public awareness driver education operation at the Clearlake High School campus to raise teen driver awareness regarding the California Vehicle Code restrictions for new drivers during their first twelve months of driving. California law restricts new teenage drivers from transporting passengers under the age of 20 years for the first 12 months.

Officers contacted over twenty teenage drivers during the operation and provided educational information related to their driving restriction. The Lakeport Police Department will be taking enforcement action regarding teen driver restriction violation whenever discovered.

Sergeant Kevin Odom, Lakeport Police.
